DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

See attached.

Art Unit: 2142

On July 10, 2006, the Office mailed an Examiner Interview Summary in this application. The interview summary incorrectly stated that it was summarizing an interview held for this application, 10/051,405, when it was actually summarizing an interview held for application 10/051,406. Obviously, the examiner who prepared the interview summary entered the incorrect serial number when creating the interview summary form. The interview summary should not have been mailed in this application. The interview summary has no relevance to this application.

In order to remedy this situation, I have directed that the file containing the interview summary within USPTO's IFW (Image File Wrapper) system be closed and made non-public. Since this issue was brought to my attention by Andrew Caldwell, who is the supervisory patent examiner assigned to 10/051,406, I have asked him, rather than the examiner to whom the application was assigned, to take these actions on my behalf.

The file that I have directed to be closed and made non-public is:

Date	Doc Code	Description	Pages
7/10/06	EXIN	Examiner Interview Summary Record (PTOL - 413)	3

The USPTO regrets any inconvenience to the Applicant resulting from the mailing of the Examiner Interview Summary.

No response to this letter is required.
